Creating a LinkedIn account

Aim:

To Create a LinkedIn Account

Algorithm:

1. Go to the LinkedIn sign-up page: LinkedIn Sign Up
2. Enter your:
    - First name
    - Last name
    - Email address
    - Password
3. Click **Agree & Join** (or continue with your Google account if you prefer).
4. Verify your email address or phone number if prompted.
5. Add your profile details, such as:
    - Profile photo
    - Location
    - Education
    - Work experience
    - Skills
6. Start connecting with classmates, colleagues, and friends, and follow companies that interest you.

Creating a GitHub account

Aim:

To Create a GitHub Account

Algorithm:

1. Visit the GitHub sign-up page:
    - https://github.com/signup
2. Enter your details:
    - **Email address**
    - **Password** (use a strong password)
    - **Username** (this will be your public GitHub ID)
3. Click **Continue**.
4. Verify your email address by entering the code sent to your email.
5. Complete the verification (such as a CAPTCHA) if prompted.
6. Choose your preferences:
    - Choose the **Free** plan (recommended for students and beginners).
7. Click **Create account**.
8. Verify your email by clicking the verification link sent to your inbox.
9. Sign in to GitHub using your username/email and password.

After Creating Your Account

Complete your profile by adding:

- **Profile picture**
- **Full name**
- **Bio** (e.g., *Cybersecurity Student | Learning Python, Linux & Ethical Hacking*)
- **Location**
- **Website or LinkedIn profile** (optional)

Create Your First Repository

1. Click the + icon in the top-right corner.
2. Select **New repository**.
3. Enter a repository name (e.g., CyberSecurity-Labs).
4. Choose **Public** or **Private**.
5. Check **Add a README file**.
6. Click **Create repository**.

Create a OneDrive Account

Aim:

To Create a OneDrive Account

Algorithm:

1. Open your web browser and go to:
    - https://onedrive.live.com/
2. Click **Create one!** if you don't have a Microsoft account.
3. Enter one of the following:
    - A new email address (e.g., yourname@outlook.com)
    - Or use an existing email address (such as Gmail).
4. Create a strong password and click **Next**.
5. Enter your:
    - First name
    - Last name
    - Country/Region
    - Date of birth
6. Verify your identity using the code sent to your email or phone number.
7. After verification, your Microsoft account is created automatically, and you can access **OneDrive**.
8. Sign in to OneDrive using your Microsoft account credentials.

Upload Your First File

1. Click **Upload**.
2. Choose **Files** or **Folder**.
3. Select the file(s) from your computer.
4. Wait for the upload to complete.
